DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 1-13 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kolter et al. (US 5891907) in view of Caloianu et al. (RO 113211) and End et al. (US 5453447).

This rejection is analogous to the original rejection.

Response to Arguments

Applicant's arguments filed December 24, 2002 have been fully considered but they are not persuasive.

Applicant's argument takes position that one of ordinary skill in the art would lack the motivation and the reasonable expectation of success to combine the cited publications to obtain the claimed invention since one of ordinary skill in the art would not combine the teachings of a

cream composition described in CALOIANU with the teaching of injection composition described in KOLTER et al. and END et al. (page 2, line 16 thru page 3, line 2 of REMARKS).

The examiner strongly disagrees. Unlike applicant's argument, the skill artisan would have known that isopropyl myristate could be employed in beta-carotene injection formulation as a solvent (evidenced by AL-Hindawi et al., AN 1982:205272, abstract, Journal of Pharmacy and Pharmacology, 1981, 33(suppl.), 65 P; FR 2685203; WO 9603121; Platcow et al., AN 1955:9481, abstract, J. Am. Pharm. Assoc., 1954, 43, 690-2; Mueller-Goymann et al., AN 1993 :198002, abstract, Proc. Program Int. Symp. Controlled Release bioact. Materi., 18th (1991), 421-2). All the secondary ingredients employed herein are well known to be useful in beta-carotene formulation. Therefore, it would have been obvious to a person of ordinary skill in the art to make the claimed beta-carotene formulation all the ingredients herein (isopropyl myristate, benzyl alcohol, ascorbyl palmitate and DL-alpha-tocopherol).

The examiner maintains that CALOIANU and END provide ample motivation to modify the teaching of KOLTER such that the enhanced, stable beta-carotene formulation could be prepared.

In response to applicant's argument that there is no suggestion to combine the references, the examiner recognizes that obviousness can only be established by combining or modifying the teachings of the prior art to produce the claimed invention where there is some teaching, suggestion, or motivation to do so found either in the references themselves or in the knowledge generally available to one of ordinary skill in the art. See *In re Fine*, 837 F.2d 1071, 5 USPQ2d 1596 (Fed. Cir. 1988) and *In re Jones*, 958 F.2d 347, 21 USPQ2d 1941 (Fed. Cir. 1992).

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
